

INDIA'S PROGRESS WHEEL @ 75

On 15th August 1947 India has got freedom from 150 year old British rule. This freedom was a result of devotion, dedication of known and unknown freedom fighters. Most of the freedom fighters sacrificed their life to free India from British Rule.

Now, India has completed 75 years of Independence. During this period, India's progress and achievement in different fields like Agriculture, Industry, Health, Sports, Defense, Space, Education, Science and digital technology is remarkable. In all these sectors, India has marked a significant place in the world level.

In coming years, with this continued progress in every field, India will rank it's top position on the map of world. And we all Indians can proudly say ' सारे जहाँसे अच्छा हिंदोस्ता हमारा '

WATER MANAGEMENT

India receives second highest annual rainfall in the world, yet there is chronic shortage of water. Water conservation has become the urgent need of the day. India government has focused on rain water harvesting, Control water and percolate water in ground. Restore of old step wells to store water, build dams on rivers, provide water through canals for agriculture. Also people are kept aware about proper use of water. Every drop of water is precious, use it carefully.

ENERGY CONSERVATION

Energy is a basic requirement for economic development. The growing consumption of energy has also resulted in the country becoming increasingly dependent on fossil fuels such as coal, oil and gas, which causes environmental problems both locally & globally.

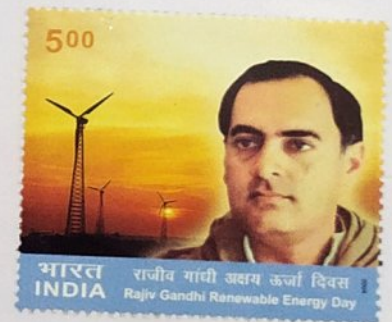

The Government in 2022 aggressively pushed for the adoption of Electric vehicles, the production of green hydrogen, manufacturing of Solar equipments and energy storage in pursuit of its ambitious 500 GW renewable capacity target by 2030.

SWACHH BHARAT

Due to fast developing urban lifestyle, there is a huge impact on the environment. Our lifestyle have large carbon foot prints which affect the climate adversely. For better living of future generation India has taken initiative on 2nd October 2014 'The Swachh Bharat' mission to create awareness about cleanliness. People of India should devote at least 100 hours every year towards cleanliness.

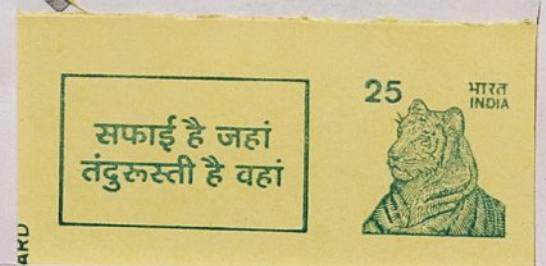

CLEAN INDIA, HEALTHY INDIA

AERO INDIA 2019

DISCUSS THROW – also known as disc throw, is track and field sport in which the participant athletes throws and oblate spheroid weight – called discus – in an attempt to mark further distance than other competitors. The event consists of throwing a heavy disc, with the weight or size depending on the competitor. Men's discus has been a part of every modern Olympics.

WEIGHT LIFTING – Sport in which barbells are lifted competitively or as an exercise. The weight used in modern competitive lifting is the barbell, a steel bar or rod to which cast-iron or steel disk weights are attached at each end on a revolving sleeve.

Snatch, Clean and Jerk and Press are the three International lifts.

Indian weightlifter **Karnam Malleswari** holds the distinguished honour of being the first woman from India to win a medal at the Olympic. Lifting 110 Kg, and 130 Kg. in the 'Snatch' and 'Clean and Jerk' categories respectively to the total 240 Kg, Karnam Malleswari became the first woman to win a prestigious Olympic Bronze Medal.
